

No. 2200 — A stocking for women who buy the best. Pure thread silk from top to hem. As clear and lustrous and smart as it is possible for a stocking to be. With run stop, reinforced heel and the long-wearing Holeproof EX-toe. Derservedly popular at \$2.00.

## Amourette

Created by Lucile of Paris for Holeproof Hosiery

This delicate shade was especially created for Holeproof by Lucille to lend distinction and smartness to footwear. It assumes a lovely sunburn effect when on and harmonizes beautifully with ensemble of pink beige. Amourette has a beguiling French accent—and is undeniably correct and modish. Try it in one of the smart Holeproof styles.

## Didsbury Loses and Draws in Two Games

### CARSTAIRS 11, DIDSBURY 8

One of the hardest hitting games of the season was played on the local diamond Friday evening last, between Carstairs and Didsbury. The visitors made eleven runs out of nine hits, Didsbury made numerous errors in the fourth and seventh inning, which gave Carstairs nine of their runs. The home team secured eleven hits but only scored eight runs. Carstairs had two or three players who were not eligible to play, and there being no word said about them by the local team, shows their good sportsmanship. Didsbury will play a postponed game at Carstairs next week.

### INNISFAIL 8, DIDSBURY 8

Innisfail and Didsbury are the two most sociable teams in the Rosebud league, each winning a game and tying two. Shorty De Long of Innisfail was in rare form only allowing three hits up to the sixth inning, when he was relieved by McMann who only allowed one hit. Cecil Studer performed on the mound for the home team allowing only a few scattered hits up to the middle of the eighth when he was relieved by Jimmy Devolin. The local team was leading up to the eighth inning when Innisfail secured six runs.

Saturday, July 21, Ken Maynard in "Gun Gospel" at the Didsbury Opera House.

### Mountain View Notes

Edgar and Alice Pearson have returned home from California accompanied by their grandfather Mr. C. C. Pearson of Puente, Cal. and their uncle, Robert Greenhalgh of Spokane, Wash. who will stay for a brief visit.

There will be a dance in the Mountain View Community Hall on Wednesday, July 25th. Clemens and Bellamy orchestra.

Mrs. James Worrall visited her mother Stampede week and her sister Inez Wood accompanied her home.

The Mountain View W. I. will meet in Community Hall on Thursday July 19. Subject for this meeting "Education and Better Schools." Convenor Mrs. McNeil.

The Olds School of Agriculture, is, as in years past, offering the use of its grounds and facilities for the holding of picnics and similar gatherings.

We make a practice of providing milk, coffee, sugar and dishes, and there is indoor accommodation for serving meals if desired, or in case of rain. The grounds are considered quite attractive, having a great variety of flowers and shrubs. The experimental plots and live stock on the farm are a source of interest and information.

Staff members are always available to conduct people around the grounds, plots and buildings. Grounds are available for the holding of sports.

We would be glad to be informed a few days in advance of the coming of any party.

Any groups or individuals are assured of a cordial welcome at any time, and we will do our best to make your visit as pleasant as possible.

Karl Dane and Geo. K. Arthur in "Detectives" on Wednesday, July 25th at the Didsbury Opera House.

With so many other things to worry about some men insist on wondering if their hair is combed.

## Joining the Wheat Pool Is Good Business

A Toronto Business Man, Owner of Alberta Farm Land, Says He Would Not Think of Staying Out of the Alberta Wheat Pool.

J. T. Todd, general manager of the J. T. Todd Lumber Co., Toronto, Ontario, is the owner of a large tract of land in the Crowfoot district in Alberta. He is a staunch member of the Alberta Wheat Pool. In fact, so interested is Mr. Todd, in the Pool's development that he is endeavoring to persuade non-Pool neighbors to join the organization.

In a recent letter to a neighbor at Crowfoot, Mr. Todd says:

"Dear \_\_\_\_\_

"I have often wondered if you had joined the Wheat Pool. If you have not, I believe if you will consider this matter seriously you will find it is much to your interest to be a member of the Pool. As you know the Pool is only the farmer in business for himself, and the more support the Pool has the better it is going to do for all of us. It is simply a cold-blooded proposition as far as we are concerned and we, like everyone else in business, want to get as much for our labor and wheat as we can. This is the day of co-operation and not only the farmers are doing this but the largest industries, such as automobile and steel, are doing the same. The people in the automobile and steel are considered to be the brainiest in the world and they are only following the lead which the farmers have pointed out to them during the last five years. Stores are also doing the same.

"I believe if you will consider this matter from your own best interest and the best interests of the community and farmers at large you will decide that you cannot afford not to be a Pool member. I would not think of being out of the Pool myself and I just purchased 320 more acres of land this spring, and as you know, 200 acres of that is now broken and will be in crop next year. All of my land is in the Pool, and in fact, if I had ten times as much land as I have it could be handled in no other way than through the Pool.

"I would like to see you and all the other fellows in the Crowfoot district members of the Pool. If enough would come in we could have an elevator at Crowfoot and that is what we want in time. I believe that with the way the movement is growing we will eventually have it."

the best tea you can buy  
In clean, bright Aluminum

## The Immigration Problem

Probably no single question affecting the national life of Canada has called for and received greater attention within recent months than the subject of immigration. It has been debated in church assemblies, Labor Unions, war veteran bodies, in Parliament and Legislatures, in the press and upon the public platform. Committees have spent weeks and months studying the problem and have issued reports. The net result is that the Government is advised and urged to adopt this policy and that policy, each one mutually destructive of the other.

On the one hand there are those who contend that only those immigrants who will engage in agriculture should be allowed to enter the Dominion, and that artisans, laborers, and those who naturally locate in cities and large centres of population should be excluded. Others would throw the doors wide open to all classes providing only that they must be healthy both morally and physically, able and willing to work, and content to abide by and uphold the laws of the Dominion.

Then there are those who would draw a purely racial line of demarcation. They would entirely exclude the so-called "yellow" races; they would bar the negro; they would put a stop to the admission of immigrants from the countries of southern and central Europe; in a word, they would rigidly restrict all immigration except that of people born and bred in the British Isles and speaking the English language.

So the Government is told that only agriculturists should be admitted into the Dominion, and then only provided they are of the white race, are of certain religious faiths, hail from British Isles, and speak the English language. Provided they are of British descent, such immigrants might also be admitted to Canada from the United States.

To begin with, no Government under the British flag, and having the slightest regard for that cardinal British principle, liberty of conscience, will recognize or enforce any bar to immigration based on the religious convictions of the intending immigrant. To do so would be abhorrent to the great mass of the Canadian people and would be equivalent to declaring to the world that Canada was no longer British.

It is equally true that an overwhelming majority of the people of Canada, and this includes all Governments, would like to see a large increase in immigration from the British Isles. Every possible effort is put forth to accomplish this result. Why is it, then, that the annual influx of British immigrants is not much larger?

There are many reasons, but a few may be cited. The number of the British agricultural class is not large, and the surplus available for emigration is practically negligible. British agriculturists can be well employed at home.

In the British Isles, the women largely outnumber the men. Some millions of British women are condemned to spinsterhood. For this and other reasons they are invading many employment fields formerly occupied by men, and the necessities of the war gave a great impetus to this movement.

The effect is seen in the rapidly declining birth-rate. In England and Wales the birth-rate fell last year to 16.7 per thousand of the population, as compared with 24.1 in 1913, the last year before the war. In other words, the birth-rate has declined one-third in the short space of fifteen years. There is not, therefore, the same tremendous urge to emigrate as was the case in years gone by.

As a matter of cold fact, the birth-rate is declining among all the white nations. It has long been declining in France; it is declining in Italy, Germany, the United States, Canada. Observers and students in Great Britain, unlike some in Canada, do not appear worried over the inter-mingling of the white people of different nationalities, but they do entertain some fear that, with declining birth-rates almost universal among the peoples of the white nations, the white race will lose its supremacy and world leadership. They foresee the day when the "quota" law of the United States will be unnecessary so far as Europe is concerned, because there will be a shortage of "whites," let alone a surplus to emigrate.

Notwithstanding the difficulties in the way, and the many conflicting views that prevail, it is agreed by most Canadians that this Dominion is in need of a much larger population—a population which is not being provided by natural increase as a result of the prevailing low birth-rate. If immigration to Canada is to be increased, then there must be some compromise effected between those who insist on agricultural settlers only, and those who would admit other able bodied workers; also compromise between those who would admit only those who would serve to swell the ranks of their particular religious denomination, and some compromise on the issue that ability to speak English is the hallmark of good citizenship and the only guarantee of success.

## Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

## Liquor Problem In Australia

New South Wales Will Vote On Referendum September 1st

New South Wales will come to grips with the liquor problem when it votes September 1 on a referendum offering the option of continued open sale of liquor and prohibition.

If prohibition is defeated the Government will review the whole position with a view to adopting a course which will effectively minimize the liquor traffic now, according to Hon. T. J. Ley, minister of justice.

Meanwhile the Government is being waited upon by delegations demanding everything from a drastic bone dry legislation to a moderate form of Government control, such as prevails in some provinces in Canada.

## WAS VERY DELICATE

New Health Came Through Using Dr. Williams' Pink Pills

Mrs. Caspar Miller, Lourdes, N.S., says that twice in her lifetime she has reason to be thankful for what Dr. Williams' Pink Pills did for her. She says:—"I was a very delicate girl going into womanhood, when I first found benefit from Dr. Williams' Pink Pills. I was a sufferer with cramps and pains every month and was hardly able to move around at all. One day when I was very sick a friend came in to see me, and she said to my mother, 'Why not try Dr. Williams' Pink Pills. I know they will do her a world of good.' The result was my mother got six boxes and I began their use, and I soon found benefit from them. By the time I had taken them all I felt an altogether different girl and no longer suffered from cramps and pains.

Then a few years ago I was attacked with influenza, and was sick for six weeks. Again I started taking Dr. Williams' Pink Pills, and again they brought me good health. I am the mother of a family and do all my own work, so you see I have to keep in good health, and depend upon these pills to keep me so. Now I always recommend Dr. Williams' Pink Pills to any of my friends who may be sickly."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Linen Aeroplanes

Metalized linen, a new fabric, may bring about a complete change in the construction of aircraft. It has a tensile strength of over 1,800 lbs. per foot width, and is very light. An aeroplane half the present weight, yet considerably stronger, could be constructed from such a fabric, it is said, while petrol tins for an Atlantic flight could be made of metalized material lighter than the thinnest aluminum.

**The Family Physician.**—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Eclectic Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

## Knew Her Onions

Most onions are pretty much alike to the average person, but those persons from South-western Texas, say there is only one real onion and that is the variety that grows in the sandy dirt of that State. To give an idea of the fondness Texans living near the Rio Grande have for their native onions a woman recently arrived in New York with a trunkful which she turned over to the chef of the hotel where she stayed. She left orders that the Texas onions were to be served with dinner each evening. She told friends she would have been unable to have made the trip North without them.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Every Home Needs Minard's Liniment.

Popularity often wins new acquaintances and loses old friends.

W. N. U. 1742

## Recipes For This Week

(By Betty Barclay)

### CREAMED PEAS

- 1 can peas drained or
- 2 cups fresh peas.
- 2 cups milk.
- 4 tablespoons flour.
- 4 tablespoons butter.
- 1 teaspoon salt. Pepper.

Make cream sauce by melting the butter, add the flour to make a smooth paste. Add the milk, one-third at a time, stir to avoid lumps. Add seasoning and peas. Heat in double boiler until the peas are thoroughly warmed.

### ORANGE PINWHEELS

- 1 cup flour.
- 2 teaspoons baking-powder.
- ½ teaspoon salt.
- 2 tablespoons butter.
- 1-3 cup milk.
- 2 tablespoons sugar.
- ½ tablespoon orange juice.
- Grated orange rind.

Mix and sift flour, baking-powder and salt, rub in one tablespoon butter, or other shortening, and moisten to a dough with milk. Roll thin; spread with remaining butter, sprinkle with sugar mixed with orange juice and rind, and roll up like a jelly-roll. Cut in slices, and place, cut side up, in buttered muffin-pans. Sprinkle with remaining sugar, and bake in a hot oven. When small and dainty, these are good for afternoon tea.

Sunburn? Use Minard's Liniment.

### A Labor Saving Machine

New Device Polishes Glasses At Rate Of Ten a Minute

A device which washes, sterilizes, dries and polishes drinking glasses of any size at the rate of ten a minute, has been invented by a young Englishman.

A tumbler placed on a spindle, is embraced both inside and outside by revolving rubber squeegees. As the spindle is made to rotate by an electric motor, a flow of fresh sterilized water is ejected over the entire surface of the glass. The glass is then transferred to a second spindle, on which it is dried and polished by a similar pair of squeegees. In addition to saving labor, the machine is said to reduce breakages to a minimum.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Expeller.

### X-Ray Prevents Smuggling

A terror for smugglers is at the new electrical clinic which has been opened in Baker Street, London. It is a new stereoscopic X-Ray apparatus from Germany which will show exactly what is in the box full of goods or any article lodged in a human body. Packages or anything made of wood could be X-Rayed, thus saving customs officers unpacking them.

The man who says what he likes will hear many things that he dislikes.

## WRIGLEY'S P.K. CHEWING SWEET

Here is a treat that can't be beat! Benefit and pleasure in generous measure!

Peppermint Flavor

## Slenderness And Health

Excessive flesh is dangerous to your health. Get rid of it now! MAIGRIR is a scientific reducing remedy of proven satisfaction. Start treatment at once—you'll feel better—look better—live longer. Money refunded if not entirely satisfied. Sent by mail only, postpaid, in plain wrapper. Price \$1 per box, or 3 boxes for \$2.50. Write—

MAIGRIR DISTRIBUTORS, LTD.  
Dept. WP-3,  
525 Pacific Bldg., Vancouver, B.C.

Omnibus lines are still a favored method of transportation in London, and several large European cities.

**Nothing As Good For Asthma.** Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

### Artificial Wool

London Evening Standard, says he learns that a fine quality of artificial wool, for years the despair of research scientists, now is an accomplished fact, and shortly will be manufactured on a large scale at a low cost.

## After a Shave.

After a shave, lotion your face with Minard's. Soothing and cool. Excellent for cuts.

## HERCULES PERMANENT BUILDING PAPER

Smooth the Bumps  
on the Sales Road

Regardless of price, if quality is in the merchandise, it is half sold.

Hercules Permanent Building Paper is tested and proven wind proof—absolutely. Hercules not only aids in selling but brings repeats. Hercules also has the quality of toughness which, making it easy to use without fear of tearing or cracking, appeals strongly to the user.

Hercules—in three grades, x, xx, xxx—will smooth your building paper sales road. Samples sent on request.

Appleford Paper Products

HAMILTON, CANADA

## MANITOBA TO OBTAIN CONTROL OF RESOURCES

Ottawa.—The Federal Government and the government of the province of Manitoba have reached an agreement as to the method and basis of settlement of the question of the administration and control of the natural resources of Manitoba. Premier Mackenzie King has issued a statement covering the agreement arrived at.

Under the agreement the vexed question of financial adjustments is left to a committee which will be appointed by the Federal Government with the concurrence of that of Manitoba. The two governments have agreed on the following persons as members to comprise the commission: Hon. W. A. Turgeson, of the Saskatchewan Court of Appeal; Hon. T. A. Crerar, of Winnipeg; and Charles M. Bowman, of Waterloo, Ont.

Mr. Crerar occupied the post of minister of agriculture at Ottawa for some time and was also leader of the Progressive Party. Mr. Bowman is a director of the Mutual Life Insurance Company, of Canada.

Mr. King announced that these gentlemen would be apprised immediately of the agreement and that they would be invited to accept appointment.

### Might Be From Tropics

Unusual Exhibit Will Be Seen At Edmonton Exhibition

Edmonton.—Grapes, sorghum, sugar cane, soy beans and tobacco. Such a list reads like the exports of some tropical island, or at the very least, the products of a southern state.

Visitors to the Edmonton Exhibition will have the opportunity of checking up on the list, for the products mentioned will be included in the entry from the C.P.R. Irrigation Development farm at Brooks, Alberta, which will be staged in the Agricultural building.

Throughout the week fresh supplies of the products quoted will be brought to Edmonton from Brooks in order to keep the display fresh and attractive.

### Offered Home In China

Jews Given Opportunity To Establish National Home

London.—An opportunity to build a Jewish national home in China to supplement the one in Palestine was offered by the minister of the Interior at Peking, says a despatch from Peking to The London Daily Express.

The offer was made as a result of a misunderstanding by the Chinese authorities of the application of a Zionist delegate who arrived in Peking and requested permission to collect funds for Palestine.

The minister of the interior at Peking thought the Zionist wanted to purchase land in China for the purpose of settling Jews there and promised a special treaty if the Zionist would indicate the site for the proposed homeland and the approximate area required.

### Credit Situation Stable

Halifax, N.S.—"The credit situation is stable throughout the whole Dominion in every line of business," declared Henry Detchen, general manager of the Canadian Credit Men's Trust Association, at their annual convention. Mr. Detchen said that last year's failures under the bankruptcy act were the lowest in eight years and that a remarkable development was in process from the Atlantic to the Pacific.

### Going To Scotland

Regina.—Appointed as leader or assistant professor of the department of entomology at the University of Edinburgh, Dr. A. E. Cameron, professor of entomology in the medical science department of the University, Saskatoon, will leave for Scotland soon. Dr. Cameron was a professor in the University of Wales, London, and Aberdeen, before coming to Saskatchewan University in 1917.

W. N. U. 1742

## Marketing Surplus Wheat

Carry-Over Of 1927 Crop May Be 80,000,000 Bushels

Fort William, Ont.—A welcome revival in the movement of western grains and favorable for the coming harvest were main features of the June report of E. A. Ursell, statistician to the board of railway commissioners. A marked improvement developed toward the end of June in the marketing of the exportable surplus of Canadian wheat with the result that lake shipments increased substantially.

The increase in lake shipments was most welcome as providing storage space for most of the grain in transit from western points.

Lake shipments during July are expected to be quite heavy and will make room for the stocks at present in country elevators at interior points which must be shipped out in readiness for the new crop.

At the end of June there were 70,000,000 bushels of wheat in store in the western division, 8,000,000 bushels in transit to terminals, approximately 82,000,000 had been milled and used for seed and another 307,250,000 bushels had been shipped out of the division. Allowing for what was on hand on July 31, 1927, it would thus appear the net total of the 1927 wheat crop already accounted for is more than 439,000,000 bushels.

It looks as if the carry-over at the close of the present season would be very close to 80,000,000 bushels unless exports during the present month far exceed expectations.

## Cruiser Dauntless Refloated

Will Be Placed In Halifax Drydock For Repairs

Halifax, N.S.—The British light cruiser "Dauntless," which hung up on a prong of Tribune Ledge at the entrance to Halifax harbor on July 2, has been floated off, after a week's strenuous preparation by the wrecking crew of the Halifax shipyards.

The "Dauntless" was at once towed up the harbor and tied up to the piers in Mill Cove, Dartmouth, awaiting a berth in the drydock, and will be kept afloat by the compressed air pumps which were installed on her decks a week ago and which have been kept going continuously ever since.

The "Dauntless" will be placed in the drydock of the Halifax shipyards, where, it is estimated, the repair work will keep 500 men busy for months. It had been ascertained early that the rocks had torn a 50-foot hole in the cruiser's bottom.

Thousands of persons gathered along the shore; on Citadel Hill and on harbor craft to witness the floating of the "Dauntless" from its precarious position.

## Toronto Mail Robbery

Five Men Under Arrest Charged With Complicity

Toronto.—Five men are under arrest here charged with complicity in the robbery of the Canadian National Railways mail car at the Union station in the early hours of June 20, it was announced by General D. C. Draper, chief of police. One woman is held on a charge of vagrancy and another as a material witness.

Although it has been generally rumored for several days that some arrests had been made confirmation had not been obtainable from the police.

Finlay McLeod, Sr., 48, of Toronto; Everett McKibbin, 38, barber of Detroit, and John Brown, alias Sullivan, 28, Toronto cigar store clerk, are charged with robbery. Finlay McLeod, Jr., 24, Toronto newspaperman, and Alex. McLeod, 42, of Toronto, son and brother respectively of Finlay McLeod, Sr., face charges of receiving stolen goods.

### Will Investigate Tariff Proposals

Ottawa.—Hon. James Robb, Minister of Finance, has left Quebec for a holiday in Ireland. While there he will look into the new tariff proposals of the Irish Free State and he is expected to take up with William Cosgrave, president of the executive council, the matter of extending to Ireland the provisions of the Canadian preferential tariff on Empire goods, subject to reciprocal treatment for Canadian goods on the part of the Free State.

## INDUSTRIAL CONTROVERSY

A. J. Cook, secretary of the Miners' Federation in Great Britain, who is the centre of the latest industrial controversy in the old country. He bitterly attacks the industrial peace policy of the Labor movement, and in return the Miners' Federation has disowned him while the Welsh Trades Union council has indicted him for disloyalty. He is familiarly known as "Emperor" Cook.

## Prize List Drafted

Six Wheat Classes In World's Grain Show Awards

Regina, Sask.—For the purpose of laying out a prize list for the World's Grain exhibition and conference to be held in Regina in 1932, a tentative classification has been prepared by a special committee nominated by Hon. W. R. Motherwell, Dominion minister of agriculture. The committee is composed of J. A. Mooney, of Regina; L. H. Newman, Carl Sweet, Dr. Mcrostie, and G. H. Clark, all of Ottawa.

Exclusive of special classes the tentative list makes provision for \$202,500 in prizes; six classes of wheat with \$100,000 in prizes, two classes of oats, with \$30,000 prizes; five classes of barley, with \$15,000 prizes; three classes of field peas, with \$3,000 prizes; two classes of soy beans, \$1,000; one class of rye, \$5,000; one class of flax, \$2,000; five classes of buckwheat, \$3,000; four classes of corn, \$30,000; one class of rice, \$2,000; two classes of millet, \$2,000; one class of red clover, \$1,000; one class of alfalfa, \$1,000; one class each in sweet clover, timothy, brome grass, mangels and turnips, \$500 each.

## Lord Byng's Appointment

Is Government Measure To Restore Confidence In Police Force

London.—The appointment of Viscount Byng, of Vimy, as commissioner of Metropolitan police, announced by the government to have been a measure to restore confidence in the police force, was sustained in Parliament when a Labor motion of disapproval was defeated, 231 to 106.

Sir William Joynson-Hicks, the Home Secretary, in making the announcement, declared that so shaken was the public faith in the police department that he had reluctantly called upon Lord Byng because the force needed, not re-organization, but re-inspiration.

Labor's opposition to the appointment of Lord Byng was based on the ground that it might tend to militarize the force. This Sir William denied.

Viscountess Astor and Miss Ellen Wilkinson, the woman Labor member, although differing on the propriety of Lord Byng's appointment found themselves in unison in expressing satisfaction at the resignation of Sir William Horwood, the retiring commissioner, who, they said, had tried to drive policemen from the force and whose policy where women were concerned had been reactionary.

Lord Byng's appointment was announced a few weeks after the dismissal of charges of improper conduct against Miss Irene Savidge and Sir Leo Moley, who were arrested in Hyde Park. In connection with Miss Savidge's examination the accusation was made that the police had used the third degree methods.

## The Manville Tragedy

Vernon Boohar Is Held As a Material Witness

Edmonton.—Developments in the Manville tragedy, in which four people on the Boohar farm were shot to death, were the arrest of Vernon Boohar, and the discovery that a British army rifle of .303 calibre was missed from the home of C. E. Stevenson, honored resident of the district, and whose farm is about a mile away from the Boohar residence.

Vernon Boohar, 20 years old, who found his mother, brother and two hired men lying dead around the house and barn, shot through the heads, when he returned from the pasture at the sound of the shooting, is being held as a material witness.

Police investigators state that the arrest of young Boohar is merely routine since he was the first to reach the scene of the tragedy.

## WEST'S NEW PLAYGROUND

Prince Albert National Park, Saskatchewan, which will be opened officially on August 10, bequeaths to the people of Western Canada one of the finest playgrounds on the continent. Its borders enclose 1,400 square miles of forest, lake and stream, where all is to be found that goes to make a holiday memorable.

Prince Albert National Park lies about 30 miles north of the city of Prince Albert, which is served by many lines of the Canadian National Railways. A fine motor road runs from the city to Lake Waskesiu, in the heart of the park, where the opening ceremonies will be performed

by the Rt. Hon. W. L. M. King, Prime Minister of Canada. Premier King represents Prince Albert in the House of Commons, and his constituents are presenting him with a cottage on this lake.

In addition to the Prime Minister, many other men notable in the public life of Canada, will attend. The programme will extend over a period of two days and special housing accommodation has been arranged by the committee.

The photograph shows a view on Kingsmere Lake, a typical body of water in this new and beautiful playground of the nation.—Photograph by Canadian National Railways.

## BRITAIN WILL REPLY TO U. S. ANTI-WAR NOTE

London.—The British reply to the American anti-war proposals in the opinion of Sir Austen Chamberlain, secretary of foreign affairs, will be forwarded to Washington before the end of the parliamentary session. The secretary made this announcement in the House of Commons in reply to questions and he took the responsibility for what some of the questioners characterized as delay in answering the American note.

The only delay, however, said Chamberlain, was the time which was being taken for careful consideration of such an important matter and the Dominions had no responsibility for this.

Heckled by Col. Josiah Wedgwood, Labor, who asked if Sir Austen intended "to wreck this proposal," the foreign secretary declared:

"I do not propose to wreck the proposal. I welcome the proposal and I wish to bring it to a successful conclusion."

Paris.—The Council of Ministers has approved foreign minister Briand's reply to Secretary Kellogg's proposals to outlaw war which France formally agrees to sign.

It was reiterated that the reply, while fully explaining France's viewpoint, does not put the explanations in the form of reservations.

## Meeting In Regina Of Noted Barristers

Representatives Attending From England, France, Irish Free State and U.S.A.

Regina.—Preparations for the most brilliant assemblage of legal talent ever to gather are proceeding here. Next month, the 13th annual meeting of the Canadian Bar Association will be held in this city, with headquarters in the Hotel Saskatchewan.

From the Maritimes and the Pacific Coast, outstanding public men will come for the yearly conference. From France, Great Britain, the Irish Free State and the United States, representatives of other legal bodies will be present to aid and learn in the great meeting. The convention will last three days, August 29, 30 and 31.

Hon. Mr. Justice W. M. Martin, president of the Canadian Bar Association, will be in the chair when the meeting opens at 10 a.m. on August 29. He was elected at last year's annual meeting, held in Toronto.

## Successor Not Named

Manitoba Government Has Not Filled Dr. Wallace's Position

Winnipeg.—No decision as to who will succeed Dr. R. C. Wallace, of the Manitoba University, as commissioner of mines and natural resources has been reached by the provincial government.

Dr. Wallace was recently given the post of president of the University of Alberta, and has relinquished his position as head of the geology department of the university of Manitoba to take over his new post some time in September.

### To Study Canadian Methods

London.—With the object of studying commercial undertakings and institutions in Canada and the United States, fifty representatives of the National Chamber of Trade and Commerce, have left Southampton for Montreal. Six weeks will be spent making a tour of the two countries.

### Awarded Medal Of Merit

Ottawa.—Scoutmaster Oscar Lamoureux, of Fort Saskatchewan, Alta., has been recommended for the medal of merit by the Boy Scouts' Association for his work for the Boy Scout movement over a period of seven years.

### Lindbergh's Plane Catches Fire

Salt Lake City, Utah.—Col. Charles A. Lindbergh's plane caught fire on the field here, supposedly from a flooded carburetor, just as he was about to take off. P. Noonan, Lindbergh's mechanic, seized a fire extinguisher and put out the flames.

**STOP THE GUN-PLAY!**

Two things have recently happened in Montreal that should hasten the day when the sale and possession of firearms shall forever cease. In one case, a bank clerk took home from the bank where he was employed a revolver that he kept by him in the Teller's cage for emergencies. On Sunday, he took a young lady out to some woods or fields near the city to indulge in target practice. Five shots were fired from the revolver in this way. When they returned to the young lady's house, the revolver was laid on a table. Picking it up, the girl in some way accidentally caused it to fire, a bullet entered her head, and she died instantaneously.

The other case was, seemingly more justifiable yet just as tragic. A constable shot a thief who had just grabbed a bag filled with money from the treasurer of a moving picture theatre and run. The thief was armed and, apparently, was about to shoot. The robber has since died, leaving a young wife. The money in the stolen bag amounted to about four hundred dollars. The amount is hardly worth killing a man for, though no blame should be attached to the constable who shot him. We merely say, incidentally, that the police of England are not armed with guns or revolvers and that it is a known fact that seldom do criminals in England carry firearms.

There may be legitimate room for differences of opinion as to the carrying of firearms by policemen, but there should be unanimity in regard to the absolute prohibition of the sale of firearms to civilians, or the possession of them by any persons not members of the permanent police force of any community. There are, for one thing, too many fools about who "didn't know it was loaded." For, another, the possession of a gun or revolver is too great a temptation for an excitable, or drink-crazed person. Human life is too sacred to jeopardise by the indiscriminate sale and possession of firearms. The revolver should disappear; we could get on very well without it. Even our police could do so. One of these days we may perhaps mourn a martyred Prime Minister or Governor-General shot by some idiot thinking that in such way he is striking a blow for freedom. Perhaps only then shall we learn the lesson that nobody ever shot another with a fist; it needs a gun in the fist to do that.

**HERE'S GOOD HEALTH!**

There is no good reason why people should be sick except that we seem to have got in the habit of being sick. So many of us, as we sometimes observe, "do not enjoy good health." Why, we don't know, but it remains that there are quite a lot of people who don't enjoy good health. Indeed, there are many who "enjoy bad health." Is it not possible, that the race has got into the way of enjoying bad health, and has been doing it so long, that we have come to look upon sickness and disease as our natural portion in the land of the living and to expect to be sick at times?

There are many people who have certain forms of sickness regularly every year. Hay fever, and quincy, for example, are two forms of sickness that some people have persuaded themselves that, once they have had

Messrs. Wilmer Sutherland, William Shoebottom and Arthur Gooder of Olds were Didsbury visitors on Sunday.

Messrs Russell Berscht, Ellwood Evans, Elmer Liesemer & Harold Reiber left this morning by motor for Chicago and other eastern points.

Mr. and Mrs. J. V. Berscht returned home Sunday after a two weeks auto trip to Seattle and other western points.

Mr. and Mrs. R. T. Anderson and daughters of Edmonton were visitors at the home of Mr. J. A. McGhee on Sunday.

TOURISTS! Call on W. S. Durrer and have the front seat of your car cut down. It makes a fine bed for tourists. 30-2c

Mr. and Mrs. Tom Roberts of Barrhead, Alta., motored to Didsbury last week-end visiting at the home of Mr. and Mrs. J. Boorman.

The Westerdale Sunday School will hold their annual picnic on Wednesday, July 25th. Everybody welcome.

Mr. and Mrs. Cline and family have moved to Vulcan where Mr. Cline has taken over the agency for Nash cars.

either, they must continue experiencing it once a year as sure as the time comes around. Naturally, they get what they expect. It is like putting a record on the victrola. If one puts on a jazz record one does not expect the machine to grind out a symphony by Beethoven. In like manner, people put on the hay fever record and expect to hear the Hay Fever Blues, and do.

It might be a good thing to change the record and think about health instead of disease. There can be no doubt of the fact that modern research has shown that sickness is more a matter of the mind than the body. It is in our minds we are sick, not in our bodies. Every new disease discovered finds many people ready to adopt the baby and give it shelter. Who ever heard of appendicitis until the late King Edward had it? Then all the snobs wanted it and got it. Now, it is quite fashionable.

Try thinking health instead of disease. Get the thought of health fixed in your mind. Don't discuss disease. Disease is negative; health is positive. There is no need even for you to get "better and better every day," as Coue taught. All that it is necessary for any of us to do is to remain normal every day. Health is the normal thing to possess, not the abnormal. If you don't agree with this, ask your doctor about it, and he'll tell you it's correct.

## Farmers' Marketing Tour

Canadian National Railways' Tour  
To Great Britain and  
Denmark, 1928

(Continued).

The culmination of this eventful day in Denmark's capital, was a reception and high tea at the house of Mr. E. Millington Drake, the British Charge d'Affaires, where, as co-hosts with him, we entertained Mr. Madsen Mygdal, the Danish Prime Minister, and other representative Danes. Sickness prevented the expected appearance of Prince Axel, who sent, however, a message of greeting to the Canadian visitors. The speeches of the Charge d'Affaires, the Prime Minister and our leader, Mr. Arkell, during this delightful evening, were broadcast and heard all over Denmark, as we found out later in the tour. This was the first broadcast in Denmark from a private house. Never before had we found ourselves co-partners, on foreign soil, with the official representative of the British Empire and never did we feel more proud of that Empire and Canada's share in it.

On our second morning we were away by 8.30 to visit the 125-acre farm of Mr. Carl Jensen en route to the Langager Co-operative Dairy, a typical small dairy serving about 150 farmers, where we found a warm welcome and a friend of Canada, the manager, Mr. Larsen, having a son, Mr. Axel Larsen, in Winnipeg. At Mr. Jensen's farm we were introduced to Danish red cattle and a splendid example of the better class Danish farm house, more like the home of a retired gentleman than that of a farmer actively engaged upon his land. We had been told that the renaissance of Danish agriculture began with the break-up of the Danish villages and the placing of the farmer's house upon his farm. And here was an excellent example of the change, which has given to the Danish countryside a picturesqueness and character all its own.

Our next stop was Frederikssund Bacon Factory, a co-operative concern formed thirty-three years ago with a supply of 300 pigs a week. It now has a weekly supply of 2,500 pigs, handles eggs from 8,000 poultry farmers and has paid off all loans incurred in the building and re-building of the factory. As we saw the live pigs coming in to the factory we were astonished at their uniformity, but still more at the uniformity of the bacon sides which they produced, a tribute to the educational work that has been done among the farmers. It was interesting to observe, however, that at the time of our visit only 20 per cent. of the sides were grading No. 1, 45 per cent. No. 2, and 35 per cent. No. 3. In the summer the number of firsts runs somewhat higher, up to 25 and 30 per cent. but the grading is very close indeed.

We were fortunate in meeting the director of the factory, Mr. F. L. Sieck, who has been in charge since its inception. He is probably the best informed man in Denmark in the bacon business. He is secretary of the committee which meets weekly to fix the prices to be paid for hogs by the bacon factories throughout the country, and chairman of the committee which fixes the prices to be paid for eggs by those bacon factories handling them. It is worth noting that Mr. Larsen, president of the factory, counts it a poor year when he fails to make less than \$5,000 net profit from his own farm. His worst year showed a net profit of \$2,000.

This informative visit was followed by a tour of Frederiksborg Castle, founded by King Frederik II., but now a national museum of historical portraits and paintings arranged in rooms furnished in keeping with the various periods. Here we saw the finest relief ceiling in Europe, but the outstanding memory which we all brought away with us was of two pictures of more recent date. The one portrayed the burial of the Danish flag by the inhabitants of Schleswig-Holstein at the end of the war with Germany in 1865, and the other the welcome by the restored province to

the Danish King when, after the Great War, he visited his reclaimed subjects and the buried flag, now brought forth to the light of day was presented to him. Passing through the province the King picked up a child and placed her on the pommel of his saddle. In this position he carried her with him through the scenes of rejoicing, tears of joy, it is said, coursing down the royal cheeks.

From the castle we passed to what was perhaps the strangest feature of the tour in Denmark. This was the People's High School at Frederiksborg. What we had been asking ourselves, was the secret that the Danes possessed that seem to make all Danes brothers, in a sense, not to be observed perhaps in any other nation. How did they co-operate so wholeheartedly and yet preserve their individuality. We believe we found it that afternoon, when Dr. Frederik Begtrup spoke to us on the Danish Folk High School. Here was a school attended, in winter, by young men, and in summer by women in the adolescent period, a school free from inspection, where examinations are unknown, a type of school which is often owned by an individual, but where supported in part by State funds, is nevertheless in no way answerable to the State as to its curriculum. What object could there be in such a school? Here is the answer: Schools like these do not exist for the inpouring of knowledge, but for the development of understanding. The fare at schools such as these is plain, the life Spartan. The pupils rise at 6.45. The masters are fired by high patriotism and high ideals. Waken the soul of the young man and woman, says the Folk High School, and there will result perception of the deeper values of life which will stand the pupil in good stead in all the crises of life. The practical values need not then be stressed, but will be understood and appreciated in their natural relation. If then co-operation has arisen among the Danish people, it has grown of itself, not because it was stressed but because it seemed the natural solution to the problem that existed. Whatever may be forgotten in the memories of the trip or grow less defined, it is certain that the spirit of the Folk High School will be remembered. Mr. Begtrup revealed himself as the personification of the teacher who is born, whose heart and soul are in his work, and whose work will live when he and his are gone.

(To Be Continued.)

## SUNDAY SCHOOL LESSON JULY 22

### SAUL'S EARLY MINISTRY

Golden Text: "Straightway in the synagogues he proclaimed Jesus, that He is the Son of God."—Acts 9.20.

Lesson: Acts 9.19b-30; 11.19-30; 12.25; Galatians 1.15-18.

Devotional Reading: Romans 12.1-8.

### Explanations and Comments

Paul's Preparation in Arabia For His Ministry, Galatians 1.15-18. — Luke says nothing about Paul's stay in Arabia, but Paul writes in his Epistle to the Galatians: "When it was the good pleasure of God to reveal His Son in me, that I might preach Him among the Gentiles, straightway I conferred not with flesh and blood, neither went I up to Jerusalem to them that were apostles before me, but I went away into Arabia, and again I returned unto Damascus. Then after three years I went up to Jerusalem." "It was a voluntary novitiate, a period of reflection and restraint, during which the truth which he had been so abruptly called to preach might be assimilated and clarified." Paul may have gone as far as Mount Sinai, yet it is possible that he went no farther than the desert region near Damascus, which might somewhat loosely have been known as Arabia. Like Jesus at the beginning of His public ministry, before entering upon His work, Paul went into the wilderness to fight his inner battles and think his problems through.

"The soul," said Robertson, "collects its mightiest power by being thrown in upon itself, and coerced solitude often matures the moral and mental character marvelously." It was into the solitude of Arabia that Paul passed after the dazzling revolution on the Damascus road, and there in the stillness the great solidifying of new character was made, and the new establishing of his life in God." —Robert E. Speer.

### Canada's Mining Industry

The investment in the operating mineral enterprises of Canada is now over 706 millions of dollars, and the net income annually from sales of products of the mines exceeds one-third of the total investment. During the past five years \$128,000,000 has gone into the mining industries of Canada.

Don't be afraid to speak out loud. The world is too busy to listen to whispers.

An Irish philosopher says that we can only get the things that are beyond our reach by striving for them.

## The Minister Of Agriculture

Hon. Mr. Motherwell Signally Honored By the Province Of Quebec

The honor conferred upon Hon. W. R. Motherwell, Dominion Minister of Agriculture, by the Quebec provincial government, must surely be a particularly gratifying mark of distinction. At the recent convention of the Society of Canadian Technical Agriculturists, the province of Quebec bestowed the order of Commander of Agricultural Merit upon Mr. Motherwell.

Many statesmen in the past have been honored for having achieved great things in war and in diplomacy. Mr. Motherwell's distinction has been won in the realm of the plowshare rather than of the sword. Millions of blades are annually unsheathed in Canada under the energetic urge of the minister, but they are blades of wheat. Instead of the rattle of machine guns, the roar of tanks, the oncoming of Mr. Motherwell's army is heralded by reapers, tractors and threshing machines. It is surely well to honor such generalship of peace.—Ottawa Citizen.

## Winnipeg Newspaper Union

A New Frock For Afternoon Or Evening Wear

Unusually attractive is this chic frock of youthful charm. The two-piece flared skirt is joined to a foundation, and the bodice is gathered at the lower edge to give the modish bloused effect. Three bands of material or lace are arranged at the hips, and there are tucks at the front of the neck. Ribbon forms a tie collar and is also used on the long dart-fitted sleeves. The sleeves may be omitted and a ribbon girdle added for evening wear. No. 1675 is in sizes 16, 18, and 20 years. View "A," size in 18 (36 bust), requires 3½ yards 39-inch, or 2½ yards 54-inch material, and 4 yards 2-inch ribbon. View "B," 18 (36 bust), requires 2¾ yards 39-inch material; 5 yards 2-inch ribbon; 5 yards 3-inch lace. Price 25 cents the pattern.

### Industries In British Columbia

There are now 4,138 industrial establishments in the province of British Columbia with an annual payroll of \$159,959,820, an increase over 1918 of 300 per cent. The principal industries of the province are lumber and shingle mills, mining, salmon, halibut and herring fisheries, foundries and structural steel works, sugar refining, shipbuilding, pulp and paper, clothing, food products, glass and rubber.

"I don't even know if I'd have enough work for you to do."  
"Oh, that wouldn't matter, provided the pay was satisfactory."

**How Much Water  
Should Baby Get?**  
A Famous Authority's Rule  
By Ruth Brittain

Baby specialists agree nowadays, that during the first six months, babies must have three ounces of fluid per pound of body weight daily. An eight pound baby, for instance, needs twenty-four ounces of fluid. Later on the rule is two ounces of fluid per pound of body weight. The amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day; and it is easily calculated for the bottle fed one. Then make up any deficiency with water.

Giving baby sufficient water often relieves his feverish, crying, upset and restless spells. If it doesn't, give him a few drops of Fletcher's Castoria. For these and other ills of babies and children such as colic, cholera, diarrhoea, gas on stomach and bowels, constipation, sour stomach, loss of sleep, underweight, etc., leading physicians say there's nothing so effective. It is purely vegetable—the recipe is on the wrapper—and millions of mothers have depended on it in over thirty years of ever increasing use. It regulates baby's bowels, makes him sleep and eat right, enables him to get full nourishment from his food, so he increases in weight as he should. With each package you get a book on Motherhood worth its weight in gold.

Just a word of caution. Look for the signature of Chas. H. Fletcher on the package so you'll be sure to get the genuine. The forty cent. bottles contain thirty-five doses.

What is more satisfying after the bridge game than a cup or two of Red Rose Tea? Millions of Canadians prefer it to any other because of finer flavor, remarkable strength and dustless purity. Put up in aluminum—the only material which completely protects good tea.

### CHAPTER XXVIII.—Continued

The willows that grew beside the river were blushing as the sap rose, green, yellow or red according to their kind—and the roads began to whiten with the fuzz from the aspens.

But, on this twenty-fifth day of April there arose out of the west a sheer black cliff of cloud into the boundless blue—a thick, deep cloud, in which silent lightnings played; and as the day went on, it showed up higher and higher into the sky until at three o'clock it was ready to cover the sun.

During this time the heat had not abated. The air grew heavy and oppressive. It was the sort of a day when horses break into foamy sweat and people feel cross-grained, clammy, irritable, and full of aches and pains which they attribute to the weather.

The edge of the cliff had a whitish color at four o'clock, when the sun had gone under, and all the trees were standing still expectantly, as if bracing themselves for something which they were unable to help.

In the gathering gloom the houses in Bannerman, grouped around the station, looked more than ever like cats about to spring. The clouds are rolling now, with white lines on their billows, and there is a distant rumble of thunder, like the roar of a far-away city.

All day the rain clouds threaten and thunder growls, but it is not until night has fallen that the change comes. The crows that have been sitting like birds of ill omen, humped up on the trees, fly further back into the bush, as if in dread.

On the train coming to Bannerman sits Helmi, very pale, very determined, with a purpose so terrible she does not look at her fellow-passengers, for the fear is on her that they might divine her errand and try to dissuade her from it. She has made a vow of vengeance, and she will keep it. Why should she spare the man who has wrought so much evil in her life? There is a burning, torturing pain in her heart that only revenge can ease, and as she sits at the window looking out into the gathering storm, she glances over the scene. She will come in upon him as he sits at his littered table—the ugly, grimy old man, who kept so safely the lying newspaper, guarding it, hoarding it, to do her harm. Other things he lost in the confusion and untidiness of his ugly den, but this he treasured safe, and showed it to her Jack—poisoning his mind against her—and now her Jack had gone

overseas, angry and bitter—to be killed,—and little Lili, when the fever came on her, had no home where she could be nursed back to life—no home, poor little precious Lili, with her silky brown hair and soft little caressing lips.

The fever in her breasts when she thought of Lili burned like a thousand red hot needles, until the perspiration broke in beads on her face. She would see the color fade from her enemy's face when fear gripped his wicked old heart. She had thought of it often since she saw Jack's face gliding, gliding away from her... she would see the color go in patches from his face, and he would beg for mercy when he saw the gleaming barrel of the revolver—beg and whimper and call upon his God.

Wild strains of blood in Helmi's heart were crying to her to strike and not to spare; and the pain, the horrible drawing, twisting pain around her heart grew more maddening every moment, and in every pang and spasm that tore her was a tongue that cried "Revenge!"

Once Helmi thought of God, when a flare of lightning lit up all the countryside, revealing farm houses ghostly white, and bending trees that crumbled before the rushing wind. God? a lot He cared; God was with the magistrate and let him live secure while her Jack went out with a bitter heart to die and little Lili tossed in her fever with no mother to comfort her!

Helmi had ceased to reason and ceased to fight—she only felt. The primitive passions were ablaze in her. She had been robbed of her mate and her child. Red murder gleamed in her eyes.

When the train stopped at Bannerman the storm was at its height. The wind had the whine of stretched wires in it, and whistled across the deserted platform with a horrible hissing sound. The night was inky black, with bursts of lightning blinding her eyes, and continuous bellows of thunder, like a hundred fire engines roaring past, shutting out every other sound. Helmi knew her way as if by instinct. In the lightning's revealing flashes the house she sought was easily found. She was breathing now like a person with pneumonia, her nostrils quivering like a wolfhound's when he has the quarry at bay. The revolver was in her hand, and in each flash of the lightning it gleamed like a blinding searchlight. Each chamber was loaded, for Helmi intended to do her work completely.

She reached the verandah steps, remembering the one that was broken, carefully making no noise, and stood at the uncurtained window looking in. The man she sought sat at his table with a glass and bottle beside him. A roar of thunder made the bottle tremble on the tin tray and rattled the bricks in his chimney. He started and looked toward the window, though Helmi had made no sound.

Helmi moved a step nearer and tapped on the glass. She wanted him to know—to see. She wanted to see the cringing fear—she wanted him to beg—plead. He came over to the window, and he must have seen her face, white and awful in the darkness, for he reeled back in fright with a scream of horror.

Then came a crash—a shuddering, sickening crash—with blinding blue lights that seemed to strike at Helmi's eyes like a thousand furies. There was a sound of crashing timber and a confusion that flung Helmi to her knees. When she opened her eyes and looked through the window she saw her enemy lying dead on the floor—his face livid, his eyes wide open, full of terror...

When Helmi came to herself she was running through the storm on feet shod with fright—running as if all the fiends of the night were in pursuit, the sky opening and blinding with dazzling lights and blinding darkness; night voices screaming, and louder than all, her own heart pounding in her ears.

Sometimes she fell, rising to her feet again; sometimes she felt a sudden blow, as if a crashing tree had struck her as it fell; but always her fear drove her on.

She had no sense of fatigue as she ran on and no plan of flight; but a strange homing instinct led her in the direction of Eagle Mines. Even in her hysteria and frenzy her feet carried her toward the little house where she had been loved and secure.

# Christie's

DIGESTIVE BISCUITS

Have you tried  
Christie's latest  
—the "Ace"?

## Christie's Biscuits

The Standard of Quality Since 1853

Not only for those who have to be careful of their diet but for everybody, young or old, there are no biscuits more wholesome or satisfying than Christie's Digestive Biscuits.

In the Store or on the 'phone, always ask for

Then came the rain, a furious pelting rain that seemed to fall in drowning sheets of water. Every time the heavens opened with the bursts of thunder another downpour drenched the earth.

Suddenly Helmi was aware that some animal was running beside her, and in a flash of lightning she saw the sable collie, her breast showing ghostly white against the blackness of the night.

The nearness of something warm and living gave Helmi courage, and, falling beside the dog she clasped her arms around it in a sudden passion of weeping. The animal licked her hot face soothingly, whimpering softly, and with strange comfort, in its almost human tenderness. Her wet clothes hung on her now like heavy weights. The dog ran on ahead with encouraging barks and Helmi, following, begged the animal not to leave her alone in the darkness.

A great weariness came over Helmi now, and a growing fear that her strength was leaving her, but the dog was bounding back to her every few moments and urging her as plainly as a dog could to come on a little farther.

Suddenly at the mouth of the cave, black and terrible, the dog stopped and pulled her by the hand. Helmi followed blindly into the midnight blackness, into which even the lightning could not penetrate. She found something soft beneath her feet, and, stooping down, found a bed of hay, dry and comfortable, and on it she fell, grateful to be out of the lashing fury of the storm.

The storm still roared in her ears, and the fury of the rain filled the cave with a sound like a roaring cataract.

(To be continued)

### Minard's Liniment for Insect Bites.

A University dramatic society intimated to Mr. Bernard Shaw that they would perform one of his plays if he would grant permission.

His reply was brief: "You can't, but you may."

DON'T suffer headaches, or any of those pains a tablet of Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every druggist has it, but don't fail to ask the druggist for Bayer. And don't take any but the tablets that are stamped with the "Bayer Cross."

Aspirin is the trade mark registered in Canada. It is well known that Aspirin means Bayer manufacture, to assure the public against imitations. The Tablets will be stamped with their "Bayer Cross" trade mark.

### An Open-Air Parliament

Held Yearly Since 1412 in Capital of Swiss Canton

The oldest open-air parliament in the world, known as the Landsgemeinde, which has been held yearly every May since 1412 in the market place of Atdorf, capital of the canton of Uri, Switzerland, was abolished recently by a majority vote in favor of a secret ballot to take place in the town hall.

Laws have been enacted for more than 500 years simply by uplifting arms. Six other Landsgemeindes still exist in the smaller Swiss cantons.

**Your Home Medicine Chest.**—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

### Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

#### TOOTH IS LONGER

Your child had tooth-ache one night and you were able to relieve his suffering by applications of oil of cloves to the cavity, and when the pain had subsided, you congratulated yourself that the trouble was ended.

But in the morning he awoke to find that the tooth was sore to bite upon, and longer than the others, so he said.

Now, he was right; for in a sense the tooth was longer than its fellows. Just what happened?

Each tooth is suspended in a soft tissue sac which acts as a cushion between the tooth and its bony socket, breaking the jar when the tooth is in use.

And the inflammation which caused the tooth to ache, has spread from the pulp to this sac (or pericementum), which is richly supplied with blood vessels; thus, with the accompanying rush of blood, the sac has become swollen and so thickened.

Actually then, it does lift the tooth in the socket a trifle, permitting it to hit the opposing teeth before the others come together.

Now, of course, this needs attention, not only because of the dangerous sequelae from the inflamed condition if allowed to progress further, but also for the reason that Sonny will do all his chewing on the "well side," in his endeavor to avoid using the sore tooth.

This continued long enough, will form a habit making for a one-sided muscle development and leaving the teeth on the "sick side," because of this disuse more prone to decay.

Further, should one or more of these deciduous teeth be allowed to remain in such condition as to cause pain when used, the food will naturally be bolted and a harmful habit formed which it may be difficult to correct later.

#### Drone Does It

One of the latest mechanical devices in this mechanical age is the new switch which floods an air port with light at the sound of an approaching aeroplane. The drone of the aeroplane motor is used to start a sympathetically-tuned reed vibrating; as the aeroplane approaches, the low note of its motor sets the reed in vibration, and the reed in turn switches on the powerful lights.

Masie—"He's got a lot of culture, hasn't he?"

Mae—"Yes, but it's all physical."

Minard's Liniment heals cuts, bruises, etc.

### Little Helps For This Week

"Now, therefore, keep thy sorrow to thyself, and bear with a good courage that which hath befallen thee.—Esdras x. 15.

The patient heart. That bears its heavy cross apart, And still makes known Its burden unto Christ alone.—To this one His sweet spirit brings Most dear and gracious comfortings.—Mary Bradley.

It is not in vain that you are called to pass through great trials and sufferings. They never leave you what they found you; God forbid they should! But how you bear them, what they lead you to do and to feel will vary according to your own attitude to them. Their trend and purpose are towards those two poles of duty.—God and humanity; but it is our weakness and fault that often we do not read aright their meaning. Suffering may leave us hard, selfish, and complaining, or it may lead us into the mysteries of Providence, and into the very fellowship of God.—Theodore T. Munger.

### SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little one Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaint if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee that they are absolutely safe. They are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any mother on request.

Sandy: That car I bought from you won't go.

Salesman: Well, sir, you said you wanted one that wouldn't use much gasoline.

Corns cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

No vegetable has a higher content vitamin "A" than spinach; weight for weight fresh spinach is a little richer than butter in this substance.

## TIRED, WEAK, NERVOUS WOMAN BENEFITED

Praises Lydia E. Pinkham's Vegetable Compound

Asbestos Mines, Quebec.—"After the birth of my second child, I was always feeling tired, nervous and weak and had headaches, backaches and terrible pains every month. I suffered two years before I tried Lydia E. Pinkham's Vegetable Compound. I got four bottles at first and it did me a world of good. I would not be without it in the house now, and have another six bottles in. I recommend it to every woman I know."—MRS. T. BARRITT, Box 114, Asbestos Mines, Quebec.

# EVERY TWO MINUTES OF EVERY BUSINESS DAY... SOMEONE IN CANADA BUYS A NEW GENERAL MOTORS CAR

SINCE the days of Confederation, General Motors of Canada Limited has been supplying Canada with transportation. Each year as requirements have multiplied, the scope of General Motors service has widened... the quality of General Motors cars has steadily improved. Each year more Canadians have looked to General Motors for better automobiles, until now, every two minutes of every business day, someone in Canada buys a new General Motors car. These cars are bought by people you

know... by people like yourself... for the very reasons which would guide you in the choice of a car.

They are bought because they are the product of the most progressive organization in the world's most progressive industry... because they reflect the General Motors policy of constant advancement... because they are better cars...

They represent the latest developments of the world's leading automotive research

laboratory, offering these developments to the public as soon as they become available. They are proved in advance, at the expense of General Motors, not the public. They are better cars because they are Canadian cars.

And they embody greater value because of General Motors money-saving methods of quantity buying and volume production.

This popularity of General Motors cars holds more than a passing interest for the Canadian car buyer... for General Motors utilizes increased demand to reduce production costs and to offer still more outstanding automobile value.
